Qunoot Zehra

Full-Stack Web Developer specializing in PHP & Laravel Building
Responsive, Clean-Code & Performance-Optimized Websites
Hyderabad, Sindh, Pakistan

Summary

I am a Front-End Developer and Software Engineering diploma student with hands-on experience in HTML, CSS, JavaScript, Bootstrap, and jQuery. I focus on building responsive, mobile-friendly, and user-centric web interfaces.

Currently pursuing Software Engineering at Aptech, I am also learning backend development and working with PHP, MySQL, and server-side concepts to move toward full-stack web development. As a fresher, I am actively seeking internship or junior web developer opportunities to gain real-world experience.

Outside of tech, I practice Kung Fu, which supports my discipline, focus, and a balanced, healthy lifestyle — qualities I bring into my professional growth

Experience

Prodigy InfoTech
Front-End Development intern
October 2025 - November 2025 (2 months)

Working on assigned coding tasks to practice and improve my Front-End Development skills. My work includes debugging and solving tasks to strengthen problem-solving abilities
